

IS YOUR PROVIDER HELPING YOU GET *the most* OUT OF YOUR VIDEO COLLABORATION?

In a world where mobility, connectivity, and ease of use are essential to doing business – there’s never been a better time to learn how Cisco Video Collaboration can help your organization do more with less.

1 Simple solutions for *any* environment

Cisco offers easy-to-use video collaboration solutions for small to large spaces, and everything in between.

Conference Rooms

Turn any room into an effective meeting space with the MX or SX-series

Desktop Endpoints

Bring quality collaboration to any desk with video-enabled endpoints

Mobile Solutions

Enable face-to-face meetings anywhere, on any device with WebEx

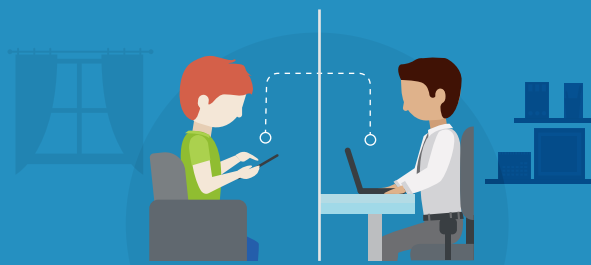

Immersive Rooms

Conduct high-end video meetings with the TelePresence IX-series

2 Connect your remote *and* mobile workforce

Cisco makes it easy to connect your dispersed workforce through innovative experiences that incorporate video.

Connect remote and mobile users face-to-face during reviews, trainings, and large company meetings

Deliver online events, seminars, and trainings in a high impact and scalable way

3 It's more *affordable* than you think

Cisco makes video conferencing and collaboration affordable for any type of business.

With both cloud and premise-based solutions, you can choose the right cost structure and deployment

Cisco offers all-in-one solutions that combine voice, video, and messaging into one ready-to-go solution

The Value of a Partner like Solutionz Conferencing, Inc.

When you work with Solutionz, you get a Cisco expert whose sole mission and business model is to focus on **you** and **your needs**. It's what makes us different, and it's something that will never change.

-  **Cisco Diversity Partner:** We're a certified minority-owned business
