

Safe by Density

# Keep your people safe, without invading privacy

Safe is a real-time occupancy system designed by Density to measure the use of your buildings and preserve employee and customer privacy.

## Safe Display

Empower employees and customers to make safer decisions about their day with real-time capacity displays. Options are native mobile, web, SMS, and on-site digital signage.

## Safe Alerts

Alert staff when occupancy reaches unsafe levels. Give your employees and customers the ability to subscribe to Safe Alerts.

Text (234) 567-8900 when Occupancy > 50 people

Density now  
**Unsafe Occupancy Alert!**  
The 3rd Floor has exceed it's safety threshold. Current Occupancy: 87. Safe Occupancy: 75

Density now
