

Unified Technology Systems, Inc. Announces Rebranding, Changes Name to Solutionz, Inc. and Celebrates 45 Years in the Audio Visual and Unified Communications Industry

Southeastern A/V Integrator, Unified Technology Systems, has unveiled a new name, new logo and new website as part of an extensive rebranding effort after being acquired by Solutionz, Inc. in December of 2019.

LOS ANGELES – June 15, 2020: Unified Technology Systems (“Unified”), a recognized leader in the audio-visual integration market, announced the company’s complete rebranding today. Unified Technology Systems completed the extensive rebranding effort as part of the company’s acquisition by A/V integration powerhouse, Solutionz, Inc (“Solutionz”). At the heart of this rebranding is a change of the company name to “Solutionz, Inc.”, an update to the corporate logo and website and an expanded portfolio of A/V offerings.

Solutionz, Inc. is the 5th largest audio-visual integrator, support services and cybersecurity provider in the US and announced the acquisition of Unified Technology Systems late last year. The rebranding of Unified Technology Systems expands the combined company’s position as a national leader in the design, deployment, and integration of A/V, cybersecurity, and unified communication systems.

“This rebrand represents a significant step in Unified’s evolution,” said Barry Goldin, President of the Southeast at Solutionz, Inc. “We are extremely proud to assume the Solutionz name and to be a part of such a large, growing integrator like Solutionz. Our culture has always been built on trust, credibility and industry knowledge and the last six months have proven that we were a perfect fit for the Solutionz family.”

“Unified Technology Systems is our 6th acquisition and through them, we have learned the importance of capitalizing on the strengths of operational unity early on. That is why we committed to rebranding Unified Technology Systems under our Solutionz brand within the first 6 months and I am proud that we have accomplished this goal,” said Bill Warnick, CEO of Solutionz, Inc.

About Solutionz, Inc:

Founded in 2001, Solutionz has been providing end-to-end A/V solutions backed by leading support services for commercial, SMB, education, healthcare and government organizations for over 19 years. Through a series of strategic acquisitions, Solutionz has a combined 102 years of experience and expanded the portfolio, geographic footprint, and partnerships. Solutionz offers a comprehensive portfolio of A/V integration, cloud services (Voice and Video as a Service), grant advocacy, 24x7 help desk support, and managed services. About Unified Technology Systems:

Unified Technology Systems started as a local education market provider in 1975 under the name Multi Media Services. As the company grew, they expanded from purely an education market solution provider to address the needs of corporate as well as state and local government clients. In 1991 Video Systems of the Carolinas was formed in Charlotte, NC to address the audio/video systems integration needs of clients in the NC market. These two firms merged in 2011 to form Unified AV Systems and became a leading AV Systems integrator in the Southeast US. After bringing onboard the Structured Cabling and Network, Security, and Infrastructure capabilities of Xzact Technologies in 2017 the company was renamed Unified Technology Systems to demonstrate this expanded technology capability. Unified Technology Systems brings a powerful combination of A/V and IT infrastructure expertise to provide state-of-the-art integrated technology solutions for its clients. Unified Technology Systems provides design, engineering, installation, and maintenance services for low voltage technology systems to corporate, education, government and religious entities.
